When pokes get removed by the user, Facebook just marks them as "viewed" and keeps them forever.

"Deleted" messages just get marked as deleted, but are not remove from the systems. Facebook says that messages can never be deleted. This now includes all chat messages too.

Emails

m████   @   ██ .at   ◄──────   E-Mails that were used on Facebook before are kept, even if the user deletes them

Even after the users removes a friend Facebook stores the removal.
Removing a friend is in fact just moveing it from one list to another.

Facebook tracks how removed whom.
